

Refinitiv's Commitment to The EU Benchmark Regulation

As a provider of trusted answers, Refinitiv has long been committed to publishing independent and transparent benchmark rates which are designed to be reflective of the markets. The new European Union Benchmark Regulation (EU BMR), which takes effect in January 2018, is consistent with these values.

Refinitiv Benchmark Services (UK) Limited ("RBSL") has been designated as the Administrator of regulated benchmarks for Refinitiv. RBSL is now authorized as a Benchmark Administrator by the FCA under the EU Benchmark Regulation.

Four benchmarks are currently administered by RBSL:

- WM/Reuters London 4pm Closing Spot Rates;
- Canadian Dollar Offered Rate ("CDOR");
- Canadian Offered Repo Rate Average ("CORRA"); and
- Saudi Arabian Interbank Offered Rate ("SAIBOR").

Our EU BMR implementation program will ensure compliance with the regulation. The program is sponsored by Stephan Flagel, Head of Benchmarks and Indices at Refinitiv and CEO of RBSL, and is a key strategic priority for Refinitiv in 2019 and beyond. As our EU BMR implementation program continues, benchmarks currently administered by Refinitiv will be migrated to RBSL and can continue to be used until the migration is finished under the Transition Provision.

We will remain closely engaged with clients and will release further information to help our clients understand how our EU BMR program will affect them. Find more information about Refinitiv Benchmarks at <http://www.refinitiv.com/benchmarks>
